About Us

Afore is a leading PV string inverter provider from China, with more than ten years dedicated experience in PV string inverter R&D and manufacturing, Afore inverters have been installed in Europe, Australia, China, Indian, Japan, North America and South America, satisfying hundreds of thousand users globally.

We provide single and three-phase high-efficiency PV string inverters for a capacity of 1kW to 60kW, storage inverters and all-in-one storage products. All of our inverters are integrated with smart monitoring system.

We offer not just good products, but also high-efficient local support to our partners and users throughout the inverter life span. Make sure the customers receive reliable returns by choosing Afore!

2010

Afore New Energy Technology (Shanghai) Co. Ltd. was established.

2011

Afore inverter was installed in China's first residential solar PV system.

2012

Afore inverter showed up in Secrets of PV War, one episode of a large studio TV program Dialogue on CCTV-2.

2013

Afore was identified as high-tech enterprise by Shanghai government and becomes a member of Shanghai Solar Energy Society.

2014

Sales amount got continuous growth in Europe, Asia, Australia and other regions.

2015

The first light-weighted design three-phase PV string inverter (10 - 30kW) .

Contents

4.0kW Cambridge, UK

1.3MW Dongtai, China

50kW Poland

2016

Successful launched 6.0~8.0kW single-phase PV inverters, continues to expand market share.

2017

Three phase 50-60kW inverters are launched, which have the highest water-proofing level IP68 fan in the industry.

2018

The 5th Generation Inverters and Hybrid Inverter (3-5kW) launched.

2019

Storage All-in-one solution launched.

Distributor

Residential HNS series

HNS-TL1

1-3 kW

The Afore HNS Series Single-phase inverters are designed for residential PV system applications, rating from 1kW to 3kW. All models have unibody housings with aluminum structure which is anodized, increasing durability and effectively prevents corrosion. The unibody housing can ensure efficient heat dissipation, which significantly improves the reliability and extends the life of the inverters.

The inverter menu is activated by sensor touch buttons. Communication implements are via the Wi-Fi module (can be changed to Ethernet / GPRS). Check the system status anytime and anywhere via online portal or APP.

Commercial & Power Plants BNT series

BNT

25-40 kW

The Afore BNT Series Three-phase string inverters are designed for commercial and power plant PV system applications, rating from 25kW to 40kW. All models with aluminum housings which is anodized, increasing durability and effectively prevents corrosion. Equipped with external inductors, ensure efficient heat dissipation, which significantly improves the reliability and extends the life of the inverters.

The inverter menu is activated by sensor touch buttons. Communication implements are via the Wi-Fi module (can be changed to Ethernet / GPRS). Check the system status anytime and anywhere via online portal or APP.

Hybrid Storage Inverter

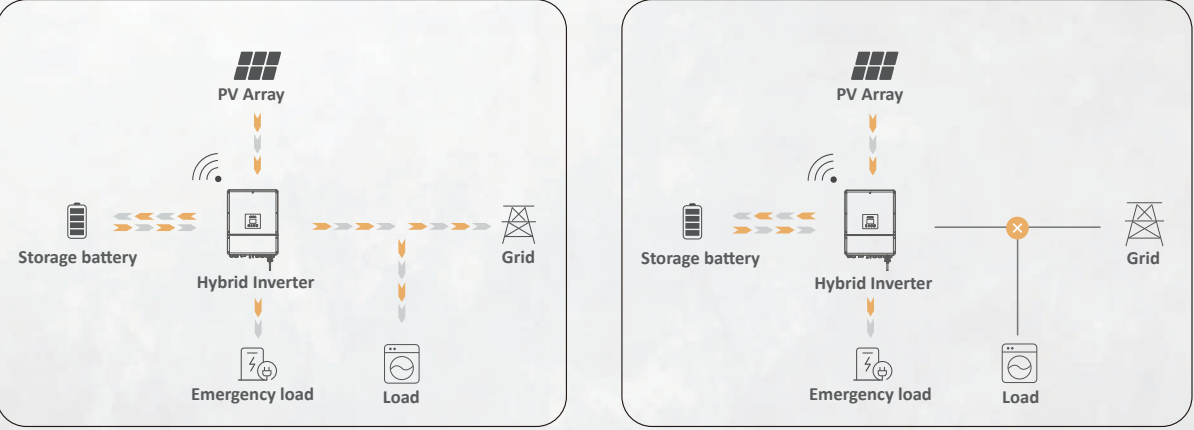

3-6 kW

For New Storage System:

Optimizing Self-Consumption (on-grid) + Emergency Power Supply(off-grid)

The Afore HNS Storage Series bi-directional energy storage inverter can be used for both on-grid and off-grid PV systems.

The storage inverter increases energy independence for homeowners. To optimize self-consumption, the battery automatically charged and discharged on the basis of customized setting. Significantly reduce the amount of energy purchased from public grid.

Communication implements via the Wi-Fi module (Ethernet / GPRS). Check the system status anytime and anywhere via online portal or APP, no additional software required.

Optimizing Self-Consumption Mode

With home energy storage installed, home owners may also be able to change from a flat rate electricity tariff to a time-of-use tariff. For the areas and regions, where peak shaving can be applied.
