FAQs and Operation for PCMtuner V1.2.7 Update

Firstly, Many thanks to the users for their support and love for <u>PCMTUNER</u>

After the 1.2.7 version update, all users need to download the PCM Suite installation package from the following website and install it.

Please download the PCM Suite installation package and install it from the website(<u>www.tuner-box.com</u>).

You can get the 1.2.7 version of the software. The picture is as shown below:

After downloading, unzip and install.

After installation

1. Double click the desktop to run PCMtuner Flash

As the picture shows below:

2. Copy the machine code according to the software prompt, and send it to the mailbox (info@tuner-box.com).

Please send the machine code together with the serial number on the back of your PCMtuner hardware device to the mailbox to request the activation certificate in order to activate your PCMtuner Flash software. Usually the digital certificate will be returned within 30-40 minutes once we confirm that you are a legitimate user, from Monday to Friday during working hours.

The machine code on the back of the device is shown in the picture below.

3. Receive the tuner-box digital certificate and copy it to the folder (C:\Program Files (x86)\PCMtuner Flash). Do **NOT** modify the name of the digital certificate. The digital certificate name is shown as below.

名称	修改日期	类型	大小
🔣 PCMtuner Flash	2022/8/8 20:44	应用程序	25,004 KB
B PCMtuner.dll	2022/8/8 22:47	应用程序扩展	5,625 KB
🚟 PCMtuner	2021/11/1 19:02	图标	16 KB
PCMtuner.license	2022/8/3 12:38	LICENSE 文件	7 KB

As the picture shows:

4. Set the default opening method of the digital certificate to "PCMtuner Flash" as shown in the picture.
