ABOUT **DDSAFETY**

DDSAFETY is a leader of Personal Protective Glove manufacturer with top quality on various of work gloves more than 20 years, like Natural latex gloves, Nitrile gloves, Rubber gloves, PU gloves, Garden gloves, Cut resistant gloves, Anti Heat gloves, TPR and mechanic gloves, touch screen gloves and etc.

In our daily life, hands protection is very important as they are necessary from heavy duty work to precision work. Like automotive, construction, digging, hammering, maintenance, warehousing, etc. Our hands provide the critical connection between us and our usual work. We are constantly expanding our lines (manufacturing area more than 60,000 square meters) and adding new products to meet different customer's needs. We passed BSCI and SGS audit.

DDsafety always focus on high quality, high-performance gloves to help our customers implement the most appropriate PPE solutions to meet their individual needs. For us, it does not only just supply work gloves, but also full supporting services that enrich your experience as a partner of DDsafety.

EN1186 – FOOD MIGRATION

1. Ensure that the product formulation only contains substances listed in EU Regulation 10/2011 (plastic materials and articles intended to come into contact with foodstuffs). This is a positive list whereby the product concerned can only be made from the materials listed in this directive.

2. Perform either specific or total migration testing or both to ensure that the article in contact with food does not leach anything into the food. This is detailed in the EN1186 series of standards (materials and articles in contact with foodstuffs – plastics).
