

## POWERINN – 10S

Introducing the Powerinn-10S, the wall-mounted lithium iron phosphate battery designed for peace of mind and exceptional value. With a robust 51.2V voltage platform and an impressive 10240Wh of energy storage, the Powerinn-10S ensures your home runs smoothly without the worry of power shortages. Experience the perfect blend of high capacity, reliability, and cost-effectiveness, all wrapped up in a unit that secures your energy needs while offering the best bang for your buck. Power your home with confidence with the Powerinn-10S.

Low price solution

Advanced BMS logic

Compatible with multiple inverters

Modular cells design

Model	POWERINN 10S
Rated capacity	200Ah
Limited charge voltage	55.2V
Cut-off voltage	46.4V
Max continuous charge current	100A
Max continuous discharge current	100A
Dimension	654*480*210(mm)
Weight	80.00Kg

EV charger

Residential loads

Solar energy

Office
