

JYQD-VH8500 High Voltage BLDC Motor Controller

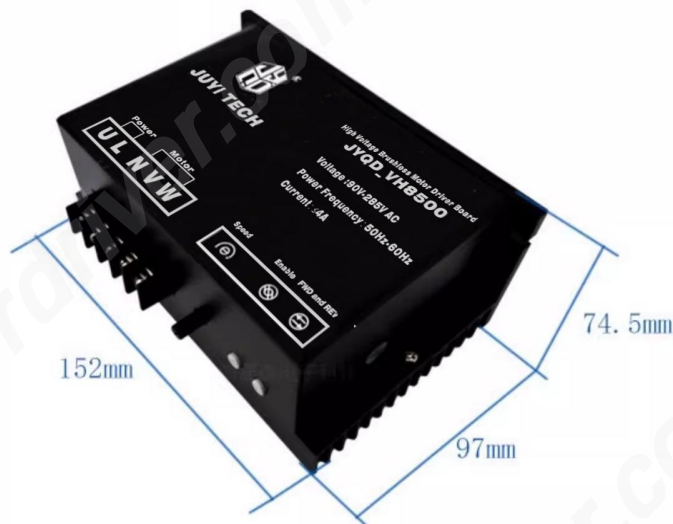

For Brushless Sensorless DC Motor

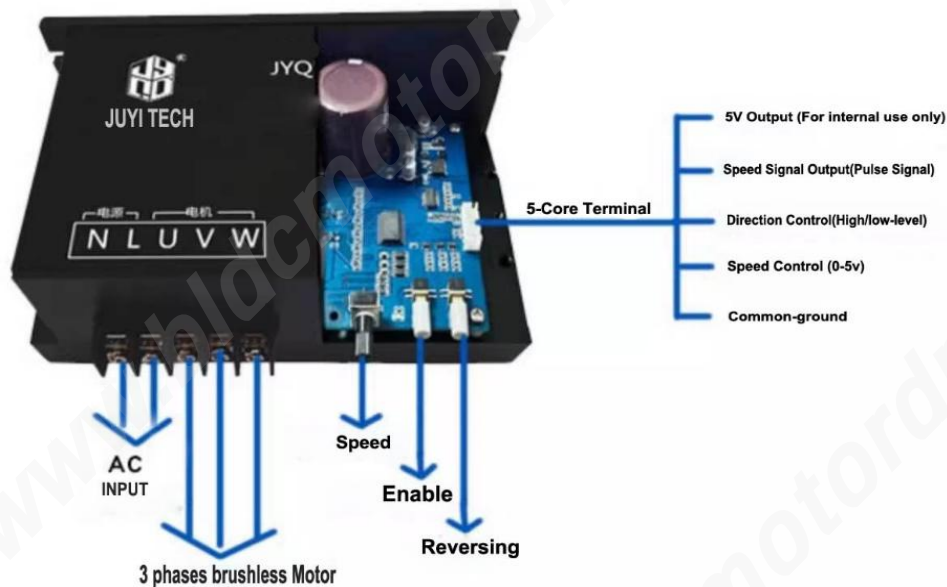

Model number	JYQD-VH8500
Operating voltage	110V/220V AC (50HZ-60HZ)
Max current	4A
Cont.working current	4A
Operating Temperature	-40°C-85°C
Operating Humidity	≤90%
· PWM speed control	PWM frequency:10-20KHZ; Duty cycle 0-100%
Analog voltage speed regulation	0-5V

Dimension

152mm*97mm*74.5mm

Operat Instructions

Functions:

Speed adjustment; Enable; Reversing function; Speed signal output function

Protection Function

Overload; abnormal current; locked-rotor; Soft Switching; Over-temperature; O.V/L.V Protection
