MATERIAL OPTIONS

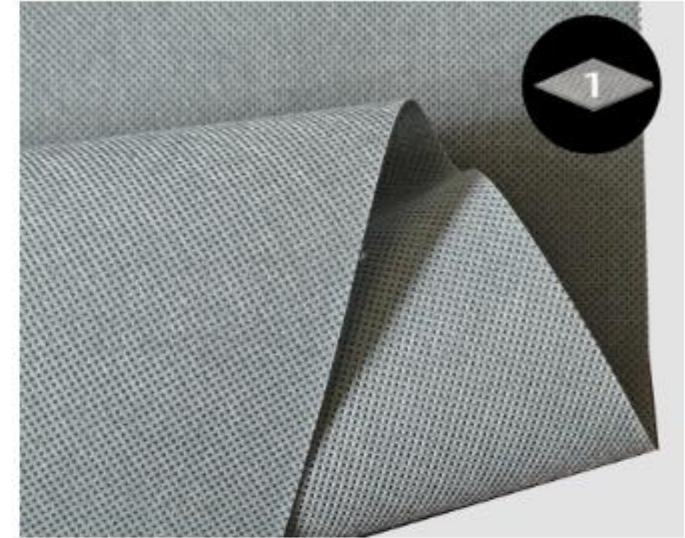

Multi-layer nonwoven fabric

- Provide superior, all-around protection by combining multiple engineered layers into a single material.
- Create a lightweight, breathable shield that resists water, UV rays, and physical abrasions while keeping the car's finish safe from scratches and moisture buildup.

Non-woven fabric with cotton

- Provide a soft, non-abrasive barrier that protects delicate paint finishes.
- This material combination excels in breathability, preventing moisture and heat buildup that could lead to mold or mildew, while offering solid protection against dust and minor scuffs.

Single-layer nonwoven fabric

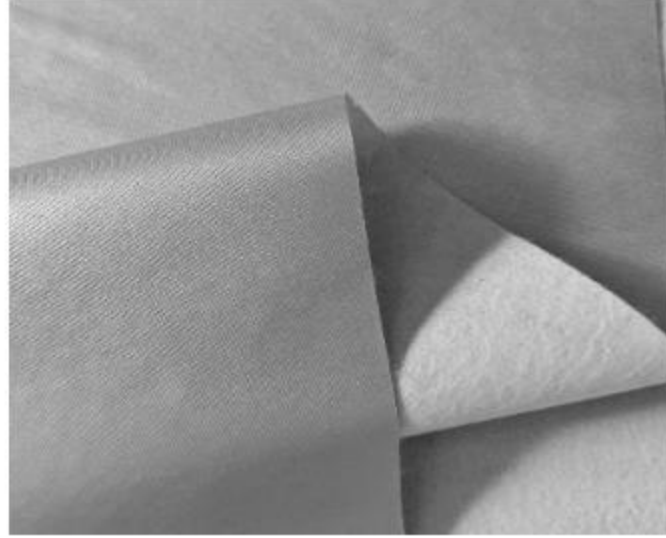

- Single-layer nonwoven fabric car covers provide an economical and lightweight solution for basic protection against dust, dirt, and light environmental exposure, with a primary focus on temporary use.

Car cover material Options

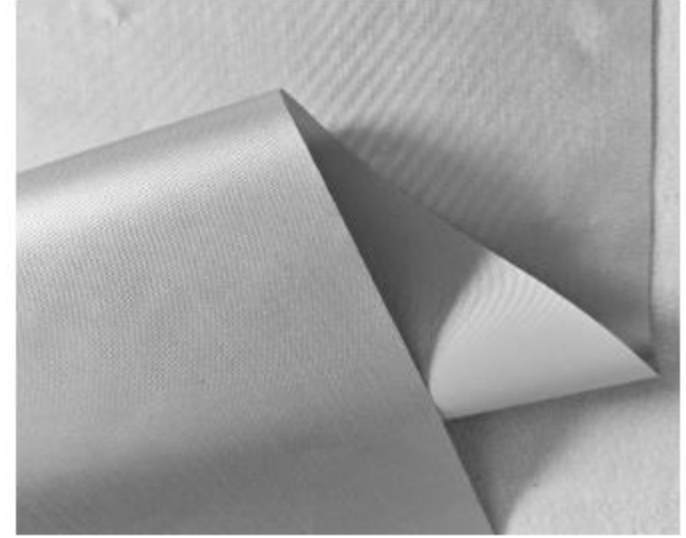

Gray composite cotton

- Autobody Armor Car Cover, constructed with three-layer protection including a tough outer layer, a water-resistant middle layer, and a soft inner lining, ideal for shielding vehicles from rain, snow, UV rays, and minor impacts.

Silver-coated cloth with cotton

- Its lining combines excellent solar protection with a soft, non-abrasive inner layer, making it ideal for protecting a car's finish.
- This two-part material reflects sunlight and heat away from the vehicle while the cotton lining ensures the protective cover is gentle on the paint, preventing scratches and scuffs.

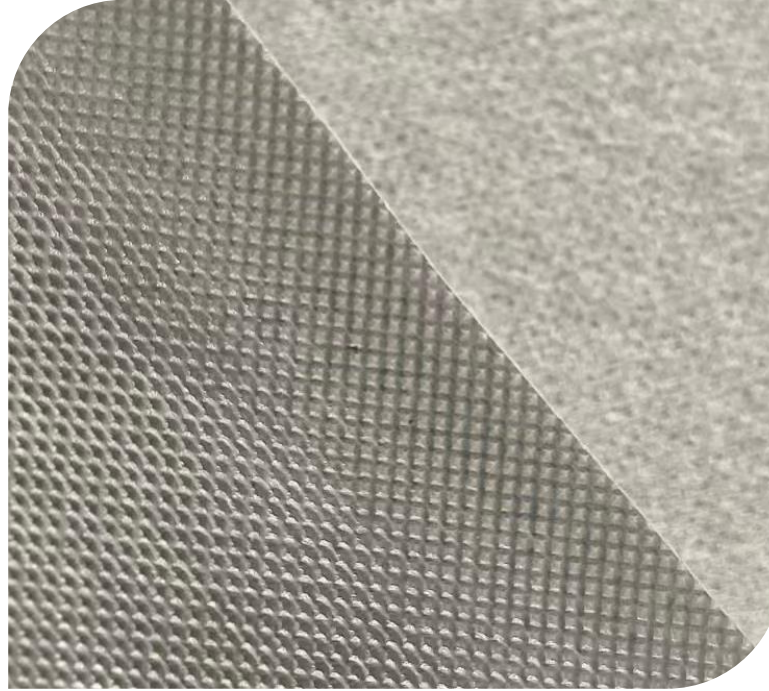

Silver-coated cloth

- Highly effective at protecting vehicles, especially in sunny climates, by actively reflecting sunlight.
- This reflective property not only prevents UV-related paint fading and interior damage but also significantly reduces the temperature inside the vehicle.

Car cover material Options

350gsm pvc with knitting back

100-120gsm peva with non woven back

250gsm PVC with cotton back

Car cover material Options

Elastic Spandex Fabric

- High elasticity ensures a snug fit for diverse car models, including uniquely shaped vehicles.
- Resists wrinkles and maintains shape after repeated use, ideal for quick deployment.

Gold Velvet

- Features a lustrous surface that reflects light elegantly, adding grandeur to unveiling ceremonies.
- Soft texture ensures scratch-free protection for car paint, while its natural drape conforms seamlessly to vehicle contours.

Satin

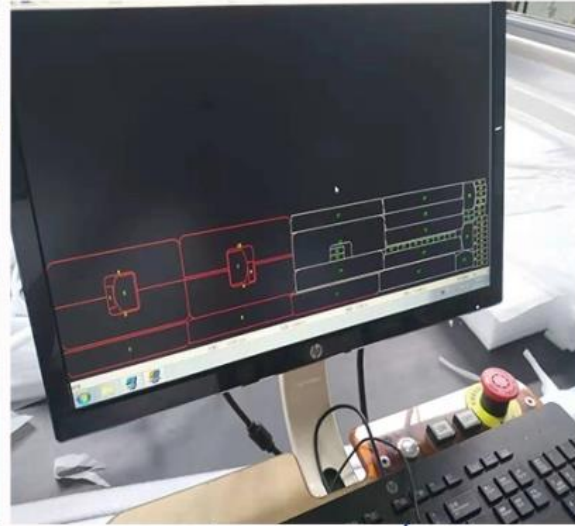

- Smooth, glossy finish exudes sophistication. Lightweight yet durable, it creates dynamic visual effects during unveiling with its fluid movement.
