Club Car DS Steering Wheel Mounting Adapter.....	1	Cross Screwdriver.....	1
(See figure 1)		24mm(7/8-inch) Socket.....	1
		Hex-head Spanner.....	1
		Hammer.....	1

## Installation Tools

## Installation Steps

1. Park the vehicle on level ground.
2. Turn the key to "OFF" position and remove it from the switch.
3. Make sure the parking brake is set.

4. Remove the 6 screws with the hex-head spanner.

See figure 2

5. Remove the steering wheel.

See figure 3

6. Remove the screw on the bar with a 24mm(7/8-inch) socket.

See figure 4

7. Use a hammer to gently loosen the bar so that the mounting adapter can be removed smoothly.

See figure 5

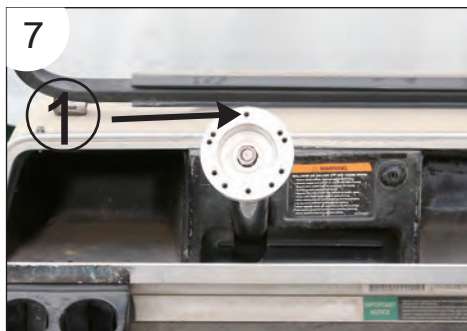

8. Remove the steering wheel mounting adapter.

See figure 6

9. Install the mounting adapter. Adjust the steering wheel mounting adapter to keep it in straight direction (Make sure the hole ① is located exactly right ahead.)

See figure 7

10. Put the steering wheel on the mounting adapter, then install the 6 screws with the hex-head spanner.

See figure 8

This completes the installation.
