(See figure 1)

Installation Tools

Installation Steps

1. Park the vehicle on level ground.
2. Turn the key to "OFF" position and remove it from the switch.
3. Make sure the parking brake is set.

4. Install the ring and washer in turn on the strut behind the mirror.

See figure 2

5. Install the mirror bracket and nut in turn.

See figure 3

6. Tighten the nut with a 9/16-inch (14mm) spanner.

See figure 4

7. Measure the appropriate distance at the canopy and mark it with a marker to center the mirror bracket.

See figure 5

8. Tighten the two screws to secure the mirror bracket with a cross screwdriver.

See figure 6

This all completes your installation.
